PRODUCT DESCRIPTION

GROHE Essence Concealed Shower System – a versatile mix of slimline style and innovative features

The impressive GROHE Essence Concealed Shower System, which has everything you need for the perfect showering experience in one complete package, adds instant style and luxury! The slim and elegant Essence single-lever trim with 2-way diverter (it comes with the Rapido SmartBox universal rough-in box for concealed installation) has a cool modern look. Thanks to the durable GROHE SilkMove ceramic cartridge, you can enjoy a velvet smooth control of water flow and temperature using the solid metal lever. And the precision German technology guarantees showering performance as well. The generous 310mm head shower, which has a 422 arm, delivers our soothing Rain spray, but don't forget the versatile 130mm hand shower*. It has three great spray options – perfect for any mood. The pulsating ActiveMassage spray offers a revitalising massage, the Jet spray is focused for power packed washing and the Rain spray is as gentle as summer rain. And switching between sprays is super easy with the ergonomic GROHE SmartTip controller. It also comes with a holder with shower outlet and 1500mm hose. GROHE DreamSpray technology ensures an even flow from every SpeedClean silicone nozzle, which can all be cleaned with a simple brush of your finger. The hard-wearing easy-care GROHE Long-Life finish keeps the set looking stunning for a lifetime. And the good news is that the installation of the trim is swift and easy, thanks to GROHE FastFixation, which has a locking system, covered escutcheon and shaft sealing. That means there is no risk of leaks! The GROHE Essence Concealed Shower System – simplicity, modern style and all-in-one performance! * Optional flow limiter for water-saving 9.5 l/min is included for the hand shower.

The GROHE logo, consisting of the word "GROHE" in a bold, sans-serif font above three stylized, horizontal wavy lines representing water.
