PRODUCT DESCRIPTION

This long GROHE Tempesta 900mm shower rail offers the same quality of design and finish as the entire GROHE range, plus the convenience of easy fitting

Bathroom upgrades have never been so easy thanks to the GROHE Tempesta shower rail, made in Germany by GROHE. Engineered and finished to the highest standards, this 900mm rail has subtle good looks and offers perfect ease of use and installation. Matching our broad hand shower range, it comes with the GROHE Long-Life finish and is hard-wearing and easy to clean for a durable yet dazzling surface. A gliding element with swivel holder makes adjusting the height and angle of the shower is super easy. And thanks to the GROHE FastFixation installation system the upper bracket is variable in height, meaning it can be fitted to existing drill holes.
