PRODUCT DESCRIPTION

Update your bathroom with the GROHE Start bath mixer – swift installation and reliable performance guaranteed

Seamless, smooth control and crisp modern lines – our bestselling mixer has just got even better. Refined and refreshed in both form and function for the demands of modern bathrooms, the GROHE Start has a slim, contemporary profile and greater user comfort. This single-lever bath mixer is designed to be wall-mounted and it has a solid metal lever handle for satisfying tactile operation. The GROHE SilkMove ceramic cartridge delivers precise volume and temperature control year after year. An adjustable flow rate limiter reduces water consumption, while a temperature limiter saves energy. And the handy automatic diverter makes it super easy to switch between bath inlet and hand shower. Just add the GROHE hand shower of your choice – so rinsing your hair in the bathtub is suddenly a luxurious pleasure. An integrated non-return valve in the shower outlet prevents backflow of waste water into the water supply. And the multi-layered coating of the durable and easy-care GROHE Long-Life finish ensures a brilliant shine that lasts for years. It's also perfect for upgrades and revamps as installation is surprisingly easy: Thanks to the GROHE QuickSpanner the mixer can be mounted with no need for further tools. If you need more guidance, watch our QuickVideo or have a look at the QuickGuide. Extend your guarantee from five to six years by registering your GROHE Start!
